DETAILED ACTION

This office action is in response to the election filed November 22, 2005. In accordance with the amendment, claim 1 is under examination.

Election/Restrictions

1. Applicant's election **without** traverse of Group I, namely claim 1, in the reply filed on November 22, 2005 is acknowledged. Claims 2-14 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected Group, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on November 22, 2005.
2. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Priority

3. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Information Disclosure Statement

4. The prior art documents submitted by Applicant in the Information Disclosure Statements filed on January 21, 2004, August 5, 2004, and July 1, 2005, have been considered and made of record (note attached copy of forms PTO-1449).

Claim Rejections - 35 USC § 102

Art Unit: 2874

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

6. Claim 1 is rejected under 35 U.S.C. 102(e) as being anticipated by Donno et al. US 2002/0136508 A1.

Donno et al. US 2002/0136508 A1 teaches (ABS, [0036]-[0037], claims 1 and 4) an optical fiber coupler comprising: a plurality of optical fibers including a λ_1 -band optical fiber F1 and a λ_2 -band optical fiber F2, fused together at a fusion-elongated portion G, wherein each fiber tapers in the fusion-elongated portion to a narrower outer diameter, wherein the two bands (λ_1 and λ_2) are different from one another, and wherein the propagation constant difference between the optical fibers (F1 and F2) is 10^{-4} rad/um or smaller (see [0037]; claim 4), which clearly, fully meets Applicant's claimed limitations.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure, with respect to the state of the art of optical spliced fibers having a tapered fusion-elongated portion: PTO-892 form references A and B.
